- Operating income of \$2.3 million vs. \$1.0 million in first nine months of fiscal year

FY2011

- Operating income of \$3.3 million
- Company generates \$7.0 million in cash from operations
- Net income, including tax benefit, of \$5.4 million
- Company pays 8th consecutive quarterly dividend of \$0.05 per share on November 9, 2011

CHICAGO, December 2, 2011 - The Female Health Company (NASDAQ-CM_FHCO -News), which manufactures and markets the FC2 Female Condom, today reported its financial results for the quarter and fiscal year ended September 30, 2011.

For the three months ended September 30, 2011, unit sales decreased 13% to 12 million units, versus 13.8 million units – the highest quarterly unit sales in the Company's history - during the fourth quarter of FY2010. Net revenues decreased 9% to \$7.1 million, compared with \$7.8 million in the three months ended September 30, 2010, as a result of lower unit shipments.

The Company previously announced that results for FY2011 would be negatively impacted by delays in the receipt of large orders from Brazil and the Republic of South Africa (RSA). In November 2011 the Company received an order from the Republic of South Africa Department of Health for 5 million units of FC2 for delivery as soon as possible. Shipments against the order will begin before calendar year end. With respect to the Brazil tender for up to 20 million units, the Company has been advised by UNFPA that an order will be placed through UNFPA. The Company anticipates that the RSA order, any additional orders that may be received from RSA, and the order expected from UNFPA with respect to the Brazilian tender will positively impact FY 2012 results.

Global demand continued to increase during the fourth quarter, as reflected by strong revenue improvement and higher gross margins when compared with the first three quarters of FY2011. Fourth quarter revenues did not include any shipments of product to either Brazil or RSA departments of health. Gross profit decreased 8% to \$4.2 million, or 59.5% of net revenues, in the most recent quarter, compared with \$4.6 million, or 59.0% of net revenues, in the fourth quarter of FY2010 and 49.2% of net revenues during the first nine months of FY2011. Operating income decreased to \$2.3 million in the three months ended September 30, 2011, compared with \$3.1 million in the prior-year quarter.

The Company reported net income attributable to common shareholders of \$4.5 million, or \$0.16 per diluted share, in the fourth quarter of FY2011, down 18% from the fourth quarter of FY2010, when net income attributable to common shareholders totaled \$5.5 million, or \$0.19 per diluted share. In the fourth quarter of FY2011, the Company recorded a small favorable currency gain of \$0.01 million and a tax benefit of \$2.5 million, compared with an unfavorable currency loss of \$0.1 million and a tax benefit of \$2.8 million in the corresponding period of the previous fiscal year.

The Company expects significant quarter-to-quarter variations in its operating results, due to the timing, receipt and requested shipping schedules of large orders. As reported throughout FY2011, the Company's financial results were negatively impacted by on-going delays involving certain large tenders.

For the year ended September 30, 2011, net revenues decreased 16% to \$18.6 million, compared with \$22.2 million in FY2010, reflecting lower unit shipments, which decreased 16% to 32.9 million units, compared with 38.9 million units in FY2010. Gross profit decreased 24% to \$9.9 million (53.1% of net revenues), compared with \$12.9 million (58.2% of net revenues) in FY2010. Operating income decreased 24% to \$3.3 million in FY2011, compared with \$4.3 million in FY2010, which included a \$1.9 million restructuring charge.

In FY2011, net income attributable to common stockholders decreased 20% to \$5.4 million, or \$0.19 per diluted share, compared with net income attributable to common stockholders of \$6.7 million, or \$0.24 per diluted share, in FY2010. In FY2011, the Company recognized a tax benefit for past losses that added \$2.5 million to net income attributable to common stockholders, whereas a \$2.8 million tax benefit was recognized in FY2010. Stockholders' equity at September 30, 2011 totaled \$16.8 million, versus \$16.1 million at the end of FY2010.

"We are very pleased to report that Fiscal 2011 represented another year of solid profitability for our Company," noted O.B. Parrish, Chief Executive Officer of The Female Health Company. We generated sufficient cash flow to continue our quarterly dividend program during fiscal 2011. After the payment of approximately \$5.5 million in cash dividends, our year-end balance sheet reflected a cash position of over \$4.2 million, compared with \$2.9 million at the end of fiscal 2010. Our Company remains debt-free and has \$2 million available in an unused credit line."

"As noted in previous press releases, timing issues regarding the receipt and shipment of large orders can significantly impact our Company's operating results, positively or negatively. The impact during Fiscal 2011 was significant, illustrating the difficulty of providing specific revenue and operating earnings guidance. In the future, we intend to provide general comments each quarter regarding the Company's outlook, based upon information available to management at the time.

We believe the demand for FC2 will continue to increase as governments, public health agencies, donor groups, and women's rights organizations seek more effective protection for women in the global battle against HIV/AIDS, and this should be reflected in long-term revenue and earnings growth for the Company. Regarding the outlook for Fiscal 2012, we believe the Company will post record unit sales for the first quarter and that revenue and operating earnings for the year will improve improve significantly from Fiscal 2011 levels," concluded Parrish.
